Objective

I am seeking a full-time position as a full stack / front end web developer.

I believe my talents, skills, and team-player mentality along with hard work and commitment will be an asset for any potential employer.

Skills

- Creativity
- Communication
- Teamwork
- Problem-solving
- Autodidact
- Attention to detail

Languages

- English : Mother tongue
- Hebrew: Fluent

Experience

Front end developer • 2022

I joined CloseApp LTD as a freelance developer while one of their resident developers was on temporary leave. During my time there I used **Vue** and **Vuetify** to help build a back-office system, designed to keep track of live network game statistics.

I also built a data management system as the sole front end developer for Softwave LTD, using **React**, **Redux-Toolkit**, and **CSS3**.

JavaScript | CSS Instructor • Beta Academy • 2022

I teach full stack students the fundamentals of front end design

Founder & CEO • Maemadim LTD • 2014 - 2021

I founded and served as CEO of Maemadim LTD, a company focused on improving creative thinking and technological proficiency in children. Our latest program focused on teaching middle grade children programming by building Arduino based projects and learning how to code in the Arduino IDE.

Personal Tech Projects

[Portfolio](#) • React

Visit my portfolio for my latest projects and info.

[Cinema](#) • Imdb movie finder • Angular | Node

A minimalistic web app designed for searching the most popular movies listed in the imdb database. The app has an option to search for specific titles according to personal input as well.

[Musixx](#) • youtube clone • React | Node | MongoDB

A restyled clone of YouTube, allowing users to search and play videos, authenticate credentials and add to a database of favorites.

[Phoogle](#) • Visual search engine • Vue | Puppeteer | Vuetify

Phoogle is a google search engine clone, with the added functionality of returning not only the links of your search results, but their homepage screenshots as well, enabling an additional visual aid for an improved user experience.

Education

Full stack web development bootcamp • Beta Academy • 2021-2022

I completed a five-month full stack bootcamp and learned the latest web technologies and techniques. Among the subjects we learned: JavaScript, React, Node, Git, MongoDB, Rest API, Redux, CSS3, and Html5.

Psychology & Communication academic studies • Bar Ilan University • 2012-2014

2012 Executive Dean's Recognition of Academic Excellence award.

Psychometry (Israeli version of an SAT) • 2009

Final grade of **752** (98th percentile)
